

EGIS VIEWER

With PMG's **EGIS VIEWER**, transportation agencies can seamlessly collate a multitude of data from across the enterprise into a single view. The **VIEWER** provides the ability for average users to create dynamic, ad-hoc queries, reports and maps to support daily responsibilities and decision making without possessing expert GIS knowledge. Having easy access to a host of Department data available 24/7 greatly increases productivity and efficiency.

About PMG

PMG is a transportation software company offering a comprehensive technology stack for DOTs backed by a full complement of consulting services and world class customer support.

We are focused on helping DOTs manage assets, project budgets and project life cycles using the latest geospatial technologies.

- Access business data throughout the entire business enterprise
- Search data intuitively with Quick Search
- Save searches and share with others
- Output search results to ArcGIS Online
