# *pmg*SLD

***pmg*SLD** is an interactive Straight Line Diagraming tool where users can view roadway attributes, assets, and map information related to a route in one intuitive interface. Fully integrated into Esri's Roads and Highways Event Editor, ***pmg*SLD** offers the most complete SLD solution on the market. The event editing experience is improved and simplified by providing event information back to the user in a linear stacked display, allowing users to review and edit event data in context of other related events while along down a route.

About PMG

PMG is a transportation software company offering a comprehensive technology stack for DOTs backed by a full complement of consulting services and world class customer support. We are focused on helping DOTs manage assets, project budgets and project life cycles using the latest geospatial technologies.

![PMG SOFTWARE PROFESSIONALS logo]
