With STIP Manager, transportation agencies can take advantage of an easy to use web-based solution to create, amend and report the STIP. All applicable funding and budget information is available in one place ready for querying and reporting. Users are able to add new STIP entries or modify existing ones, view budget and expenditure information for various projects, and generate reports which are easy to understand. STIP items are easily mapped increasing the understanding of how the projects relate to each other.

About PMG

PMG is a transportation software company offering a comprehensive technology stack for DOTs backed by a full complement of consulting services and world class customer support. We are focused on helping DOTs manage assets, project budgets and project life cycles using the latest geospatial technologies.

- Electronically manage, amend and publish the STIP
- View STIP projects on a map
- Manage multiple revisions simultaneously
- Report budgets and expenditures
- Create Ad-hoc reports
- Integrate with project programming
- Integrate with MPO TIPs

Manage STIP and TIP programs, budgets, and approvals in an intuitive, spatially enabled interface.
